

# Activating your Account to our New School

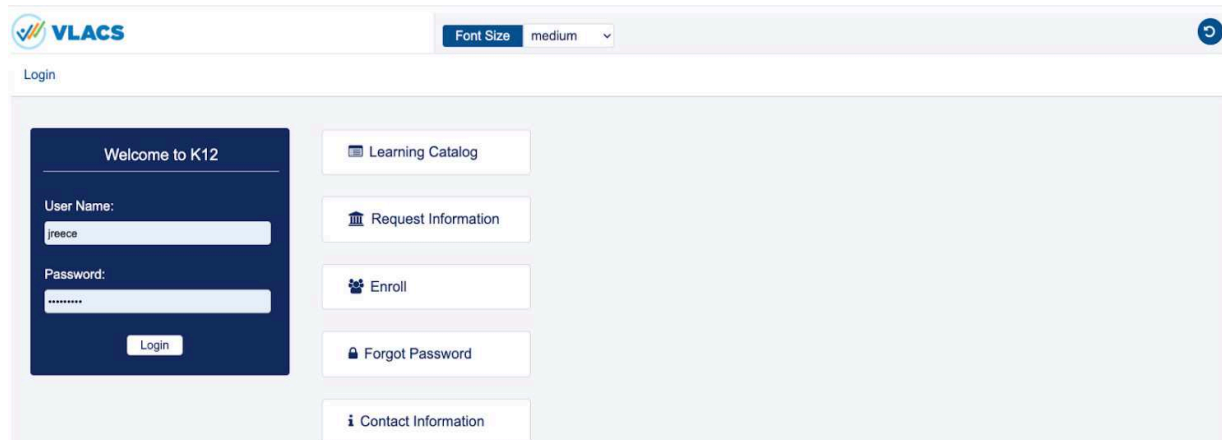

## Step 1: Check Your Inbox

If you are currently enrolled in a course, be on the lookout for an email with information about activating your account. You'll receive a new username as well as a link to create your new password. Think of a password and keep it in a safe place, then click the activation link to get started!

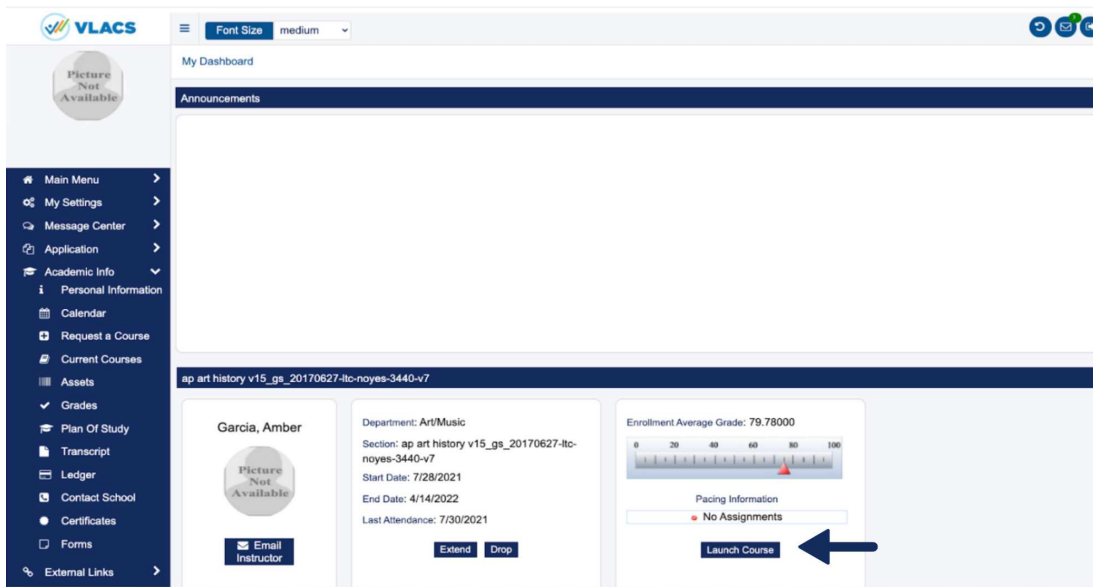

## Step 2: Enter Login Credentials

After you create your password, it's time to sign in. Enter your new login credentials and sign in to your account.

### Step 3: Access Your Courses

Welcome to our new student information system, Maestro!  
Once you log in, you will be brought to your account dashboard. This is where you'll find your active courses. To access your new course page, select "Launch Course" located under your courses.

### Step 4: Start Learning!

After you select "Launch Course," you'll be redirected to Canvas, our new learning management system. Now it's time to resume your courses and start learning!
